

TMQ Complete Successful ISO Compliance and GMDSS Lloyds Approval

Press Release 06.10.2017 | Approved for immediate distribution

TMQ International Pty Ltd are now ISO 9001:2015 QA compliant, having completed their Audit successfully on the 5th October 2017.

To provide customers with an industry aligned process, product and production methodology, Brisbane based TMQ extends stringent and efficient requirements to ensure their manufacturing, servicing and R&D capabilities meet expectation. Core product range includes Autopilots, Intercom/PA Systems, Steering control and accessories and Computer based Electronic Plotting Systems.

TMQ also congratulates High Seas & Service Coordinator Jason Green, highly experienced in his field, having passed Lloyds Approval for GMDSS. Additional employees received AIS approvals, providing enhanced service capability for Darwin Northern Territory, Brisbane Queensland, Melbourne Victoria and Western Australia.

Covered within the Approval are leading electronics manufacturer JRC Voyage Data Recorders, Shore based EPIRBS, PLBS and SART (ACR), testing and survey of vital Radio communication equipment, inspection, performance and testing of Long Range Identification and Tracking Systems, and Ship Security Alert Systems. Other agencies within this certificate include Kelvin Hughes, Cobham/Sailor, SAAB, AMEC, SIMRAD and Jotron.

AMI Group member TMQ next seeks to pass NKK and ABS approval, offering their clientele an even greater scope of trusted certification. For service capability across Parker Village Marine/HRO Water maker systems, Marine Electronics including Radio, communications and navigation, and High Seas service and supply, contact TMQ International.
