**About ISES Association:**

Founded in 1963 the vision of the ISES Association Ltd (International Ship Engineering Service Association (ISES) Ltd) is to provide Ship Owners, Operators, Managers and the Offshore Industries with quality service throughout the world in the Electrical, Electronic, and Engineering and Mechanical sectors.

This objective is achieved by members co-operating with each other to ensure the continuity of services both between ports and from one member to another, according to the customer's requirements.

The Association also has Affiliate members who are certified suppliers of equipment or material in the Electrical, Electronic, Mechanical and specialised marine related fields.

Sincerely yours,

Pepe Bris  
Secretary General

International Ship Electrical and Engineering Service Association (ISES) Ltd. Registered in England: 1096918
