ISES Association Ltd U.K.

Register Address: Kemp House , 152-160 City Road, London, EC1V 2NX, UK.
Post Address: C/ Maria Auxiliadora 22, 4-B, 10003, Caceres, Spain.

Tel: +34 927 042805 **Mob:** +34 627919990

Email: secretariat@isesassociation.com **Web:** www.isesassociation.com

Contact: Pepe Bris – Secretary General

Founded in 1963 the vision of the ISES Association Ltd (International Ship Engineering Service Association (ISES) Ltd) is to provide Ship Owners, Operators, Managers and the Offshore Industries with quality service throughout the world in the Electrical, Electronic, Engineering and Mechanical sectors.

This objective is achieved by members co-operating with each other to ensure the continuity of services both between ports and from one member to another, according to the customer's requirements.

Please refer to each individual company's entry for full details of the services they provide, and where they can provide them.

To arrange service please contact the ISES member direct using the contact details listed in the guide. You may also contact the ISES Secretariat who will assist you to arrange service with an ISES member. There is no charge for this service.

The Association also has Affiliate members who are certified suppliers of equipment or material in the Electrical, Electronic, Mechanical and specialised marine related fields.

ISES has also a group of Members open to Ship-Owners, Ship-Manager and Ship-Operators: USER ASSOCIATE MEMBER. This is open to companies willing to use ISES worldwide Network of Members and Affiliate Members and get updated info about them and market trends.

We operate a LinkedIn Group "ISES Association Ltd" which is a closed group open to approved individuals. This is an ideal platform for exchanging information with like-minded professionals. We are also present in other Social Networks such as Twitter and Facebook.

Email: turbogeninfo@turbogen.com / turbogenmario@gmail.com
Web: www.turbogen.com

Turbochargers:
Service and maintenance of all makes and sizes of turbochargers ● Service on board ● Repair of turbine blades, nozzle rings, impellers, compressor wheels, gas housings ● Service of oil pumps ● Service of bearings ● Stock spare parts ● Dynamic balancing

Scrubbers:
Design and Construction

Metalock Repairs:
Special repairs by Metalock System

Separators:
Service and repair of all manufacturers of Separators

Turbines:
General attention of gas and steam turbines

Service/Sales Representations:
MAN-Diesel & Turbo ● Eurotech ● KBB Bannewitz ● MAN Nutzfahrzeuge ● (MET) Mitsubishi Heavy Industries ● Soteco International ● Comtech ● MIA (Metalock International Association) ● ADS (Association Diesel Specialist) Member ● Hyundai ● Schaller

Quality Accreditation:
ISO 9001

Ports Serviced:
All the following ports in Argentina: Buenos Aries, La Plata, Dock Sud, San Nicolas, Rosario, Santa Fe, Necochea, Bahia Blanca, Puerto Madryn, Comodoro Rivadavia, San Antonio Oeste, Campana, Rio Gallegos, Ushuaia. All other South American ports on request.

Read's Electric Company P/L Australia

Address: 25, Strang Street, PO Box 55, South Freemantle, Western Australia 6162

Mob: +61 414342360 **email:** mark@readselectric.com

Reads Electric Co Pty Ltd has an enviable record of over 60 years of service. In that time we have grown to be the premier electrical repair and service provider in Western Australia.

Reads Electric was established in 1959 by Brian and Coral Read and has developed a strong reputation for quality, efficiency and excellent after sales service

Rewinds:
Rewind and repair of all types of rotating and static electrical equipment to 5Mw / 30 tonne / 11Kv ● HV coil manufacture ● Transformer overhaul and manufacture ● All insulation classes.

Specialising:
Full no load / load testing to 11Kv ● In house machining and mechanical repairs ● Metal spray and Micro flow ● Dynamic balancing ● Bearing testing and vibration analysis ● 200 tonne horizontal pressing ● Abrasive cleaning

Site Services:
Installation, modification, voyage repairs and fault finding on all types of static and rotating equipment ● Thermographic survey ● In situ Dynamic balance ● Primary injection to 2000 amp.

Facilities:
VPI epoxy impregnation system ● Large dip varnishing ● Cleaning and drying capabilities.

Service/Sales Representations:
TECO ● WEG ● TAIYO ● MARELLI

Quality Accreditation:

AS/NZS ISO 9001:2015
AS/NZS 3800:2012 Electrical Equipment for Explosive Atmospheres – Overhaul and repair.

Ports Serviced:
Fremantle, Kwinana, Esperance, Albany, Bunbury, Geraldton, Carnarvon, Dampier, Port Walcot, Port Hedland, Broome, Darwin

Port of Antwerp – Harbour 1035

Electrical services : Repair, overhaul & rewinding of all electric motors & generators (LV & HV) - switchgear & transformers – facilities for motor components engineering + manufacturing (coils & commutators) – VPI technology (vacuum impregnation) – heat treatment – load testing – all diagnostic measurements & diagnostic surveys – lifting capacity 100T – Supply of spare parts & motors. ABB, ANSALDO, ALCONZA, approved workshop & supplier.

Mechanical services : Repair & overhaul of 2 & 4 Stroke engines and turbochargers - turbines (gas & steam) – compressors – gearboxes – pumps - fans and other rotating equipment. Welding & machining of all ferrous & non-ferrous materials – metal spraying techniques (warm, cold & Babbitt) – white metal spraying & bearing reconditioning - dynamic balancing (up to 100 tons) and high speed balancing in vacuum bunker installation (12,5 tons – 30.000 rpm) – laser alignments.

Diagnostic maintenance: Ship's vibration & acoustic measurements (structural & machinery) – Thermo graphic imaging & analyses – motor condition analyses – laser alignment – diagnostic surveys – independent reporting.

Project management : Reconditioning projects – retrofit & upgrade projects – reengineering – major overhauls – installation services – riding squads – Word Wide service.

Quality accredition: ISO 9001, ATEX Certified according to IECex3 for explosion proof machines Eexd, Eexe & Eexde – High Voltage Safety – VCA Certification, DEKRA explosion proof certified workshop.

Ports serviced : Antwerp, Zeebrugge, Ghent, Rotterdam, Amsterdam, Terneuzen, Flushing & Dunkirk. Riding squads & World Wide services.

Consult-Elect was established in 2000 by former technicians from Merlin Gerin which is now part of Schneider Electric. After 20 years Consult Elect has developed a strong reputation in electrical distribution services, on board vessels in Canada and abroad.

Services:

- Maintenance, tests, repairs for low and high voltage circuit breakers onboard or in workshop.
- Thermographic survey.
- Certify technicians with appropriate equipment to maintain SF6 gas used on high voltage circuit breaker.
- Switchboards upgrading studies for new technology integration.
- Circuit breaker retrofit solutions without power interruption, protection relay testing and upgrading with the use of latest technology tools.
- Arc-flash studies for a safe switchboard operation.

Class approvals:

On a regular basis and customers request our tests on board or in workshop are approved by class like LR, DNV, or BV

Representations:

Schneider Electric service provider agreement, low, high voltage, protection relays. Tie link with ABB for short notice and emergency supply

Quality accreditation:

ISO 9001: 2015

Ports serviced:

Montreal, Quebec, Halifax, Vancouver, Victoria, on board or abroad on call

Changshu Ruite Electric Co.,Ltd. is Hi-tech Company dedicated to researching, developing and producing marine electrical systems.

The company focuses on innovation, integrity management and products series of marine LV switchboard, marine MV switchboard, marine power, marine circuit-breaker, automation control devices and management systems which are widely applied in civilian ships.

Services:
Changshu Ruite Electric Co.,Ltd is developing and producing marine electrical / automation equipment and system integration of Marine electricity and automation systems.

Class approvals :
“CCS”, “LR”, “DNV-GL”, “ABS”, “BV”, “NK”, ”RINA”

Products:
MV Switchboard ● LV Switchboard ● LV Control ● Power Electronics ● Marine Circuit-Breaker ● Ship-Handling ● Lighting Monitoring ● Cabin Monitoring

Quality accreditation:
ISO-9001/14001/18001, GB/T 19001-2008 and GJB9001B-2009

Ports serviced:
Singapore, China

Services: +86-0411-39368660 Shasha Han Quality Manager

Based in LuShun Port, China, the company was established in 1978, it's one of the enterprises to produce medium/low voltage switchgear and power distribution equipment for marine and offshore engineering.

In the past 30 years, the production was distributed native and abroad, good credit standing was built up, it's the first company in the same trade to achieve ISO9002 and GJB/Z9002 credit, also acquired ISO9001:2000credit.The production quality was kept at excellent level; the eligible rate reached 120 percent. To insure our quality promises to clients is also the criterion for customers to approbate our production.

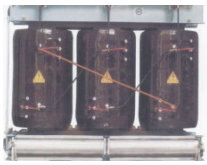
The establishment of the new technique system and the application of the test and quality management system, adequately assist our production.

Products:

- Marine Transformers
- Marine Distribution Products
- Marine Explosion-Proof Products
- Box Type Substation

Quality Accreditation: GB/T 19001 – 2016/ ISO9001:2015

Ports serviced
All ports in China. Other ports upon request.



RMS Marine Service Company Ltd. China

Address: No.365, Gaodong Second Road, Pudong, Shanghai, China (200137)

Tel: 86-21-50171617 **Fax:** 86-21-65380899

SaierNico Europe AS: info-europe@saiernico.com **Tel:** +45 7454 0222 Fax: 0223

Products:
Marine switchboards & power management systems ● Bridge, Wing, E/R & Cargo Control consoles ● Distribution Boards ● Charging & discharging panels ● Starters ● Shore connection boxes/test panels ● E/R alarm light columns●Variable Frequency Starters and Soft Starter ● E/R alarm &monitoring systems ● Valve control and tank gauging system ● Propulsion control system ● Heating, ventilation and air condition control system ●Integrated Automation System

SaierNico was founded in 1994 and specialises in the design and manufacturing of marine switchboards, automation system as well engine room and bridge control consoles. We have delivered switchboard more than 2,000 shipsets for about 200 shipowners which made SaierNico take the lead in Chinese marine market for consecutive 9 years.

During the last 5 years SaierNico has delivered switchboards for more as 1250 vessels like bulk, container, tanker, VLOC and VLCC. SaierNico has also delivered switchboards and automation system for offshore vessel and offshore platforms.

To strengthen our worldwide service capability in the European Region we have a branch office in Denmark – SaierNico Europe A/S, and we also have stock of spares in Europe.

Technicians are available 24 hours 365 days a year.

Ports Serviced:
All Chinese ports and other ports upon request.

Shanghai NSE

Mr Bin Guo – Deputy Mgr Svc Dept. guob@nse.net.cn

Based in Pudong China, Shanghai NSE was established in 2002 and is one of the leading marine switchboard manufacturers in China. It specializes in the design and manufacture of main and emergency switchboards, power management system, bridge and engine room control consoles, and other kinds of electric panels and automation systems. Its quality products have been widely used by all the main shipyards in China. Since its inception, it has delivered more than 2,000 shipsets of switchboards for different kinds of merchant ships, like 300kdwt VLCC's, 400kdwt VLOC's, capsize bulk carriers, 18000teu container vessels, etc. Its withdrawable and intelligent motor control centers have been adopted in many offshore projects, like FPSO's, Jackups & production platforms. It is an ISO9001:2008 certified company.

Offices:
Shanghai NSE has 5 regional service stations in China and 1 service station in Singapore.

Ports serviced:
All ports in China & Singapore. Other South East Asian ports upon request.

浙江欣亚磁电发展有限公司
ZHEJIANG XINYA ELECTRIC CO.,LTD

Since its foundation ITEC quickly positioned as the market leader in the Colombian maritime industry. During the following years the company was approved by main classification societies and by Colombia's maritime authority to provide all type of services to communication and navigation equipment on board national and international vessels. Today we remain as the market leader because of our professionalism and high quality, representing major manufacturers of maritime electronic equipment in the world such as:

- FURUNO	- DANELEC	- INTERSCHALT	- RUTTER	- YOKOGAWA
- SPERRY	- KH	- AC ANTENNAS	- NETWAVE	- JOTRON
- ACR	- NAVICO	- SRT MARINE	- JRC	- TOKYO KEIKI

Services:

We have an experienced and very well trained technical department. Together they have more than 30 yrs of experience and all of our engineers have been factory trained.

- Repairs
- Installations
- Commissioning
- Radio, EPIRB, AIS and SSAS surveys
- VDR surveys (APT)
- GMDSS maintenance contracts
- Sales

Class approvals:

- LR - ABS - BV - NKK - DNV-GL

Ports serviced:

All ports in Colombia and the Caribbean.

PELIG d.o.o.
Marine Electronics Sales and Service

Pelig d.o.o. Croatia

Address: Pelig d.o.o. Cavle 104, HR-51219 Cavle, Croatia

Tel: +385 51 250 976 **Fax:** +385 51 250 976

Email: pelig@pelig.hr **Web:** http://www.pelig.hr/

Contact: Kristian Jurlina – Managing Director Mob: +385 98 919 1808

Pelig Ltd. Is a Marine Electronics Company (Sales and Services) from Cavle-Rijeka, Croatia.
We are specialist in bridge navigational, communication and safety equipment.

Services:
Pelig Ltd. provides 24/7 on-demand service and support to our clients. We have highly trained Engineers, allowing us to service a big range of different equipment from different countries. This is further supported by our permanent Service Centre located in Rijeka, Croatia.

Our mission is to provide the Highest Quality Service to our customers, with the fastest turn-around time for spare parts and physical attendance on-board. Sales and installation, as well commissioning and handing over to customer is highly important part of our job we are caring out.

Class approvals:

Representations:
JRC, Northrop Grumman / Sperry Marine,Navico, Simrad, Maris, Ocean Signal, Cobham / Thrane & Thrane, Sailor, Danelec, Highlander, Headway, Orolia Netwave, Rutter and Martek Marine.

Ports serviced:
All ports in Croatia and nearby. Worldwide service support available.

MP Teknik Sp/f Faroe Islands

Address: Klaksvíksvegur 12, FO-700 Klaksvík, Faroe Islands

Tel: +298 459089 **Fax:** +298 459088

Contact: **Sales**: Pætur Gerðalíð, mobil no. +298 235701
Tech: Johnny Mikkelsen, mobil no. +298 235703

MP Teknik was established in 2004 and is a total provider of aquacultural equipment, nautical equipment and marine electronics. We carry and install clean agent fixed fire extinguishing systems for engine rooms, server rooms or special installations, and we provide radio/tv solutions and car audio systems for boats. In our advanced workshop, we repair virtually all electronics.

MP Teknik has taken part in r&d projects in cooperation with other companies and authorities, and among own innovations are MP Radio and Tracer, which has been welcomed by the fishing industry in the Faroes, Iceland and Norway.

Services
MP Teknik provides 24/7 on-demand service and support to our clients.

- Repairs, Installations, Commissioning and Sales of Radio and Navigation Equipment.
- Radio, EPIRB, AIS and SSAS surveys
- Fire extinguishing and safety
- Sumersible Electric Pumps
- Sales

Class approvals:

- DNV-GL
- FMA Faroese Maritime Authorities
- DBI Danish Institute of Fire and Security Technology

Representations: Furuno / Nortrop Sperry Marine / JMC / Simrad / Scanmar / Tracer Brassbell / Sea Marshall / Baltic / Entel / Seematz / Rule

Ports serviced:

- We can easily service all ports in the Faroe Islands
- We are willing and ready to do service around the world

Uzushio Electric was established in July 1946 and we have been in this marine business for over 70years. We published our corporate brand name as BEMAC for technologies, products and services in April 2002. In 2009, we set up our service station in Singapore and then we have changed our company name from BEMAC Marine Engineering Service (S) Pte Ltd to "BEMAC STAR ASIA PTE LTD" in March 2013. And also we set up our service station in Shanghai, China in 2012.

We are experienced in the design and production of marine switchboards comprising with Power management system, Machinery alarm monitoring system and so on. Also, electrical equipment design, installation wiring of power plant, lighting and communication equipment are made with constant reference to new technology and shipbuilding requirements. Over 5,000 vessels with our products installed are sailing around the world. To support the safety navigation of many ships , we are expanding global service network.

Main products:
Main switchboards, Emergency switchboards, Power management system, Group starter panels, Engine control console, Machinery alarm monitoring and Control system

Quality Accreditation:
ISO 9001-2015, ISO 14001-2015, OHSAS 18001-2007

Services:
Since its foundation in 1995, ILJIN AND CO., LTD. has provided ships fire detection & extinguishing equipment and safety equipment in the Maritime Safety field with a vision of *«Making the sea safer and more beneficial»* and also had a leading role in the field.

And in 2015, we challenged the Maritime ICT field and consecutively developed the Linked Emergency Shutdown System, CCTV System, VoIP Auto Telephone, and Real-time Vessel Monitoring System in a short period of time with the launch of the XC NETWORK SYSTEM brand. Until now we have provided high-quality products and started to gain a good reputation in the market.

Now, ILJIN AND CO., LTD., has firmly established a new management philosophy of *«Making the sea safer and smarter»* once again, and is creating a new market by developing and providing convergence solutions of existing Maritime Safety Equipment and ICT Technologies.

Products:
- VSAT & Airtime
- CCTV System
- VoIP Auto Telephone System
- Real-time Vessel Monitoring System
- Linked Emergency Shutdown System
- IT Setup support
- Fire Fighting Solution (Water Spray System, Cargo Spray Nozzle, Drencher System, Portable Foam Applicator for Helicopter Landing Area, etc.)

Technology in the maritime world moves fast. Luckily so do we. We are here to help your company with innovative solutions that match better with the technology and capabilities of today.
We create solutions that the market demands and that your vessel needs. We are Alphatron Marine, a renowned supplier of integrated bridge solutions, representative of the most important brands in the industry and producer of unique complementary products.
Our teams, 400+ globally, consist of the best professionals in the field of development, design, engineering and commerce. With full support of Centres of Excellence in Tokyo, Rotterdam, Singapore and Houston, we bring quality and innovation to users, operators and shipyards, and we change the future of ship and land communication and navigation. In the past years Alphatron Marine has fitted over 1200 seagoing new building vessels and are setting new standard with the trendsetting Alphabridge wheelhouse concept.
Our history is not that long. In 2014, Alphatron Marine and JRC joined forces to grow further. At this time, Japanese quality and Dutch innovation came together to bring the best of both worlds together. JRC is a leading manufacturer of marine electronics that specializes in designing and producing industry-compliant products.
With a history of more than 105 years, JRC has a strong reputation. In 2017, JRC officially took over Alphatron Marine, and we became part of the Japanese family.
One company, one team; we create ideas that change the maritime world. With a team that can scale up and get things done, that collaborates, support and tackles problems fast. A team that helps you look ahead where others cannot.

Service: M. van Grunsven / service@pat-kruger.com / +31 73 6401044

Spare parts: parts@pat-kruger.nl

40 years of experience has propelled PAT-Krüger into a reliable market leader of heavy duty safety and control systems. Delivering self-developed and high-quality innovative solutions for onshore and offshore markets.

There's an untold capacity when it comes to the amount of PAT-Krüger systems that have been installed worldwide: safe load limiters, weighing systems, height and slew limiters, winch control, data logging, remote access, camera systems and many more. Systems that intelligently connect measurements, calculations and control. Handling force, angle, length, pressure and so much more.

All systems are installed and serviced by our highly experienced and driven service team. We have extensive knowledge, huge systems database and an extensive stock of spare parts. These, combined with our strong will power, get the job done. Even when that job demands unlimited hurry, even when it's on the other side of the world. After all, to secure your operational capacity you need our secure service.

Untold capacity. Unlimited control.

Put us to the test!

Jason Electronics Pte Ltd (JEPL) is a leading provider of integrated solutions for marine communication, navigation and automation systems with a global clientele. Based in Singapore, the company is known for its wide ranging capabilities in designing, supplying, installing, integrating, testing and commissioning integrated solutions for the marine and offshore oil & gas industries, backed up by its excellent maintenance and support services. Satellite airtime services are also offered to complement its communication business.

Services:

(1) After-sales support, (2) Maintenance & repair works, (3) Troubleshooting, (4) Replacement of faulty parts and (5) Statutory Radio Survey for major Classification Societies. Its engineers are certified by principals to provide maintenance, service and annual performance test for Voyage Data Recorder (VDR).

JEPL also has a presence in international markets such as India, Indonesia, Malaysia, People's Republic of China, South Korea, Thailand and Vietnam. With this strong regional presence, JEPL is able to provide closer and better service to its customers located in the region and to further expand its customer base.

With the good track records and quality services that JEPL always deliver constantly, it has anchored its position as one of the leading players in the industry in Singapore and the region.

Representations:

With over 30 years of experience in the industry and the aim to offer optimal solutions to its customers, JEPL has established partnerships with internationally renowned manufacturers such as Baze Technology (Infotainment), Raytheon Anschütz, Rockson Automation, SeaTel and Cobham (Sailor / Thrane & Thrane) which allow the company to offer best-of-breed solutions to its customers.

In addition, JEPL is also accredited as the certified service centre for Thrane & Thrane in Singapore and the authorized service centre for Raytheon Anschütz in the PRC to provide maintenance and after-sales support.

Ports serviced:
All ports in North, Central and South Americas

Partnerships

IMPA was formed in 1978 by a group of senior purchasing executives who wanted to create an industry 'voice' to represent the interests of the purchasing profession within shipping and promote close co-operation and understanding between buyer and supplier.
Over the past 39 years the association has grown significantly and now represents over 850 members from across the world; ship owners, operators and managers' account for Purchaser members and manufacturers and ship suppliers make up Supplier members.
http://impa.net/

The AEMT is the international trade association for all companies who manufacture, distribute, install, service, maintain and repair industrial machinery technology such as electric motors, drives, pumps, fans, gearboxes, generators, transformers, switchgear and ancillary equipment, with well-equipped mechanical engineering facilities.
